School Management System - SMS

Welcome to our School Management System. This is user manual which shows how it's look like and how it's works.

This system have more roles: super administrator, administrator, human resources, teacher, student, parent, librarian and visitors.

Super admin create schools and add other user with settings system, publish static pages and many more.

Administrator add section, add students, teacher, librarian and parents, subjects, student groups and more for his school.

Human resources create can create new teachers and human resource role users for his school.

Teacher gives a marks and attendances to student, make notify for subjects, create timetable for himself, and more.

Student see attendances and marks for himself and parent see only marks and attendances for his student.

Librarian create book in library, issue and back books, give books to other users.

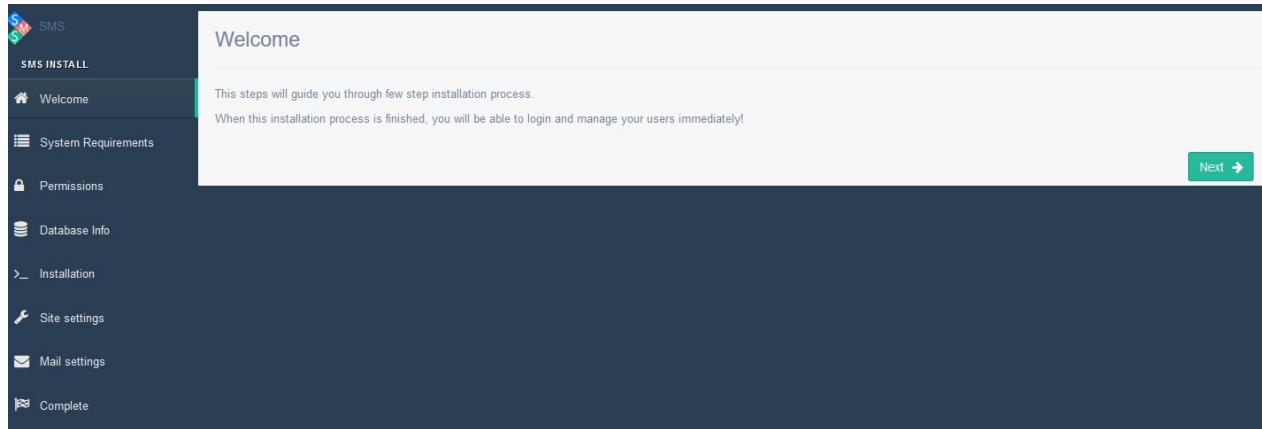

Visitors can register only if Super Administrator able them to register and see only his visitor card.

Let's install application.

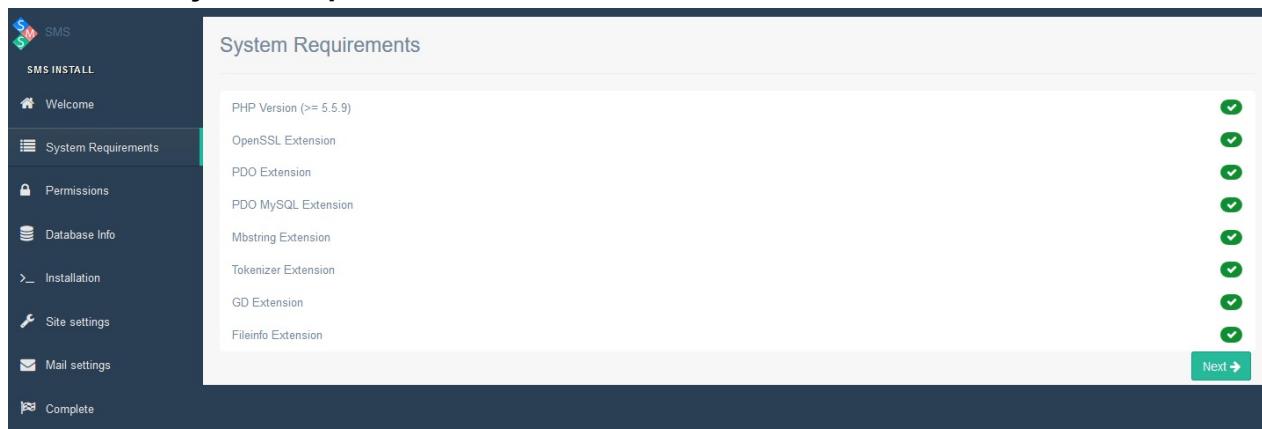

Installation

If you begin with using application you need firstable install application.

Installation begin with welcome page:

After check System requirements:

System check permissions for folders that needs to be writable for finish installation and can work correctly:

Permissions

public/uploads/avatar	✓ 775
public/uploads/site	✓ 775
public/uploads/visitor_card	✓ 775
public/uploads/student_card	✓ 775
public/uploads/school_photo	✓ 775

Next →

Installation continue with setup **Database settings** to add database connection string

Database Info

Host	
Database host. Usually you should enter localhost or mysql.	
Username	
Your database username.	
Password	
Database password for provided username.	
Database Name	
Name of database where tables should be created.	

Next →

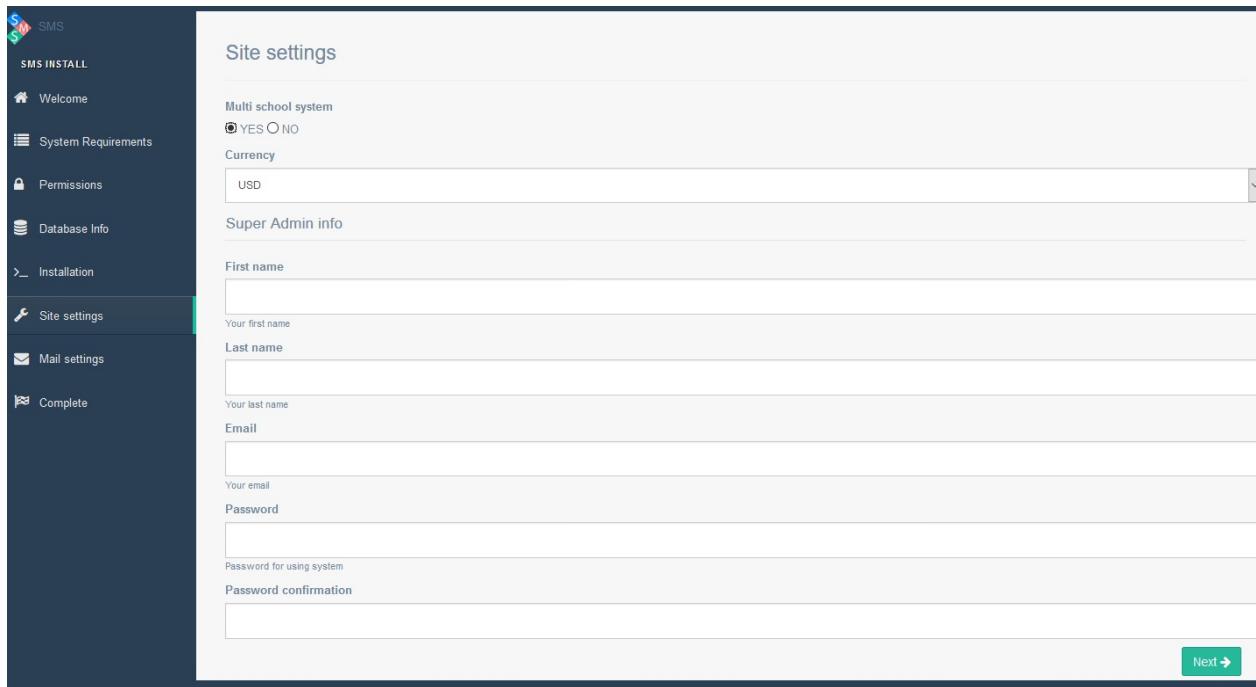

After that you can begin with installation which create database:

Installation

SMS is ready to be installed!
When you click on Install button, please be patient, it can be take long to make database and populate it initial data that need to application proper works.

▶ Install

When finish creating database you need to setup application. If you like multi school or not. If you like use it for multi schools then select **No** then enter school details if **Yes** then you latter add schools:

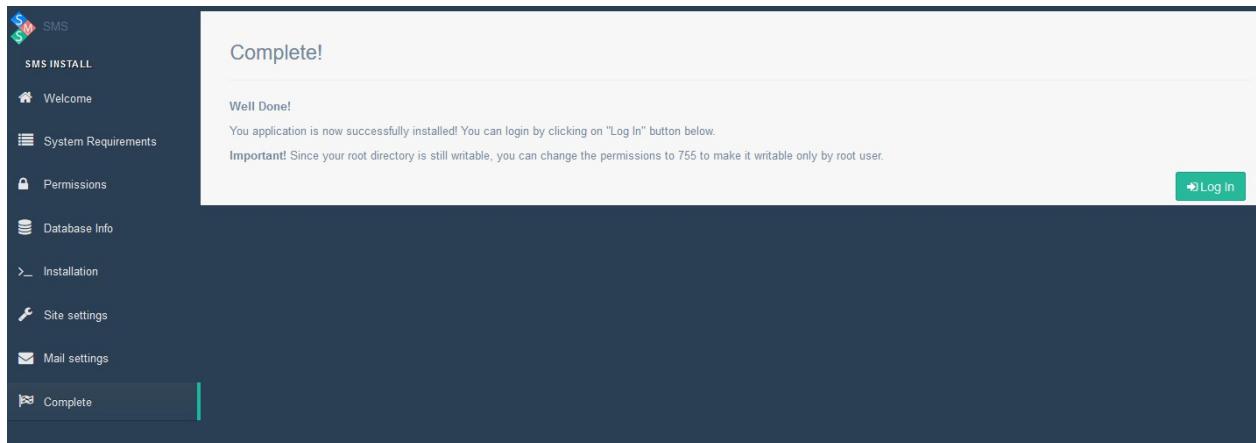

The screenshot shows the 'Site settings' step of the SMS Install process. On the left sidebar, 'Site settings' is highlighted. The main area contains fields for 'Multi school system' (radio buttons for YES or NO), 'Currency' (dropdown menu showing 'USD'), 'Super Admin info' (fields for First name, Last name, Email, and Password), and 'System password' (fields for Password and Password confirmation). A green 'Next ➔' button is at the bottom right.

And last step is setup email server settings for sending emails from website (you can leave mail if you didn't have SMTP):

The screenshot shows the 'Mail settings' step of the SMS Install process. On the left sidebar, 'Mail settings' is highlighted. The main area contains fields for 'Email driver' (radio buttons for MAIL or SMTP selected), 'Email server host', 'Email server port', 'Email server username', and 'Email server password'. A green 'Finish ➔' button is at the bottom right.

When all finished you will see **Finish** page and you can go to login with admin user (that you create in **Site settings** step):

The screenshot shows the 'Complete!' step of the SMS Install process. On the left sidebar, 'Complete' is highlighted. The main area displays a message: 'Well Done! Your application is now successfully installed! You can login by clicking on "Log In" button below.' It also includes a note: 'Important! Since your root directory is still writable, you can change the permissions to 755 to make it writable only by root user.' A green 'Log In' button is located at the bottom right.

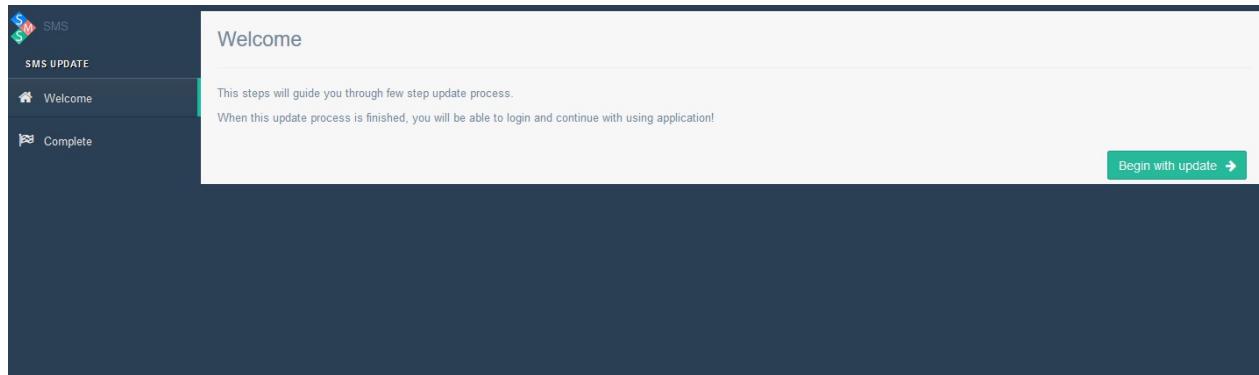

Update

SMS have update wizard for update SMS system into next version.

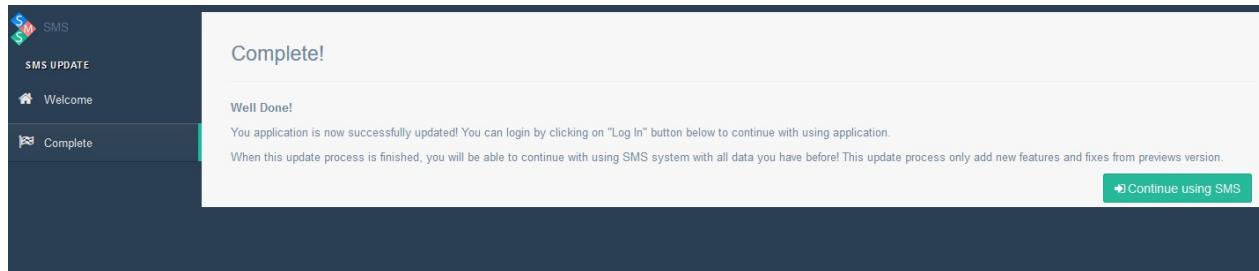

When you download a new version and **replace all files** into current SMS project (where you install it in your server), you will get update wizard to update application to new version. After update process finished you can continue using application without loosing any data.

Update process is simple wizard, have only two steps.

In welcome step user can start update clicking on **Start update**.

After update finished, it sill be show **complete** page.

Post install information

When super admin create some page that page shows in frontend (no login area):

The screenshot shows a dark blue header bar with a logo containing 'S' and 'SMS'. To the right are navigation links: 'Lorem ipsum dolor sit amet', 'Vivamus eu tortor nisl.', 'About us', 'About teachers', and 'Login'. Below the header is a light gray content area. In the center, the text 'Lorem ipsum dolor sit amet' is displayed. Below it is a large block of placeholder text (Lorem ipsum).

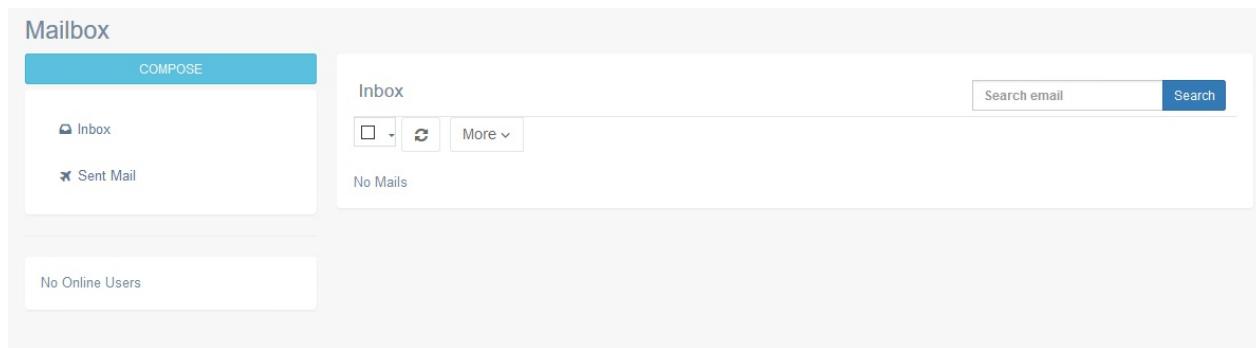

Lore ipsum dolor sit amet, consectetur adipiscing elit. Cras quam risus, maximus in quam vestibulum, porta porttitor odio. Vestibulum non massa sit amet magna fermentum vehicula. Mauris eget quam eget augue lacinia malesuada. Quisque faucibus, lorem quis porta luctus, est enim feugiat metus, vitae iaculis magna ligula nec sapien. Vestibulum mollis eros vitae ipsum semper eleifend. Proin imperdiet, enim et vehicula tincidunt, leo orci viverra velit, sit amet feugiat tortor velit nec sem. Cum sociis natoque penatibus et magnis dis parturient montes, nascetur ridiculus mus. Nullam maximus odio vel tortor ultrices tincidunt sed iaculis purus. Class aptent taciti sociosqu ad litora torquent per conubia nostra, per inceptos himenaeos. Integer vel orci sollicitudin, pellentesque quam ac, tristique mi. Sed consequat, sapien vel molestie malesuada, metus diam rutrum felis, in imperdiet lectus tellus et risus. Cras commodo sem lectus. Maecenas rhoncus sapien et sem luctus mattis. Fusce condimentum velit et eros pretium gravida. Aliquam a lectus vitae est cursus rhoncus eu nec metus. Proin sed enim blandit, iaculis erat sodales, ullamcorper neque.

Log in screen looks like this:

The screenshot shows a dark blue login page. At the top center is a logo consisting of three overlapping squares in blue, green, and red. Below the logo, the text 'Sign in with your Account' is centered. There are two input fields: one for 'E-Mail Address *:' and one for 'Password *:'. Below these fields is a blue 'Login' button. At the bottom of the page are two links: 'Forgot Your Password?' and 'Create a new user account'.

After log in, system knows which role have user and shows him a right view.

All roles have able to send messages, add notification or change profile. To send messages user can select **Messages** on top right side, belong your name. Messages can send to any user in system in one school, you can send to more then one user same message.

User can change his profile, after click on **Profile** on top right corner, and then click **Change profile** in open page.

User profile

First name	Super
Last name	Admin
Gender	Male
Email	superadmin@sms.com
Mobile	454545
Phone	4545
Address	gfyytrytr
Birth date	
Birth city	trytry

Change profile

Every user can see his certificate when click on **Profile** and go to **My certificates**.

Let's explain all others functions by roles.

Super Administrator

Super Administrator have global right to see and add more thinks with change settings .

When super administrator log in to system, his first page is look like this:

The screenshot shows the Super Admin dashboard. On the left is a sidebar with icons for Dashboard, Academic Years, Semesters, Directions, School directions, Mark systems, Subjects, Mark type, Mark values, Notice type, Behavior, Schools, and School admin. The main area has a "Welcome to SMS" header and four summary boxes: 2 Schools, 6 Teachers, 1 Parents, and 1 Number of schools directions. Below this is a "Calendar of notices" for July 2016, showing various notices scheduled for different dates. To the right is a "Schools" section with a list of schools: First school and Second school.

In begin of school year administrator open new school year. He go to **School years**, then create a new school year. If school use this system in before school year, then they have option to copy students and sections to new school year.

The screenshot shows the "Academic year" management page. It lists two school years: 2015-2016 and 2016-2017. For each, there are "Edit", "Copy sections and students", "Details", and "Delete" buttons. A search bar and pagination controls are also present.

Title	Actions
2015-2016	<input checked="" type="button"/> Edit <input type="button"/> Copy sections and students <input type="button"/> Details <input type="button"/> Delete
2016-2017	<input checked="" type="button"/> Edit <input type="button"/> Copy sections and students <input type="button"/> Details <input type="button"/> Delete

When copy to new school,super administrator need to select old section form school year before and name it in new school year. With that process, create new sections with old student and add it in new school year.

Super administrator can copy sections and students to new school year. Super admin do that by selecting **Copy sections and students** in list of school, then select school year from which one he want to copy data and type title of new section from sections that exists in

selected year. After that all students for **renamed** sections copy to new sections for selected school year. **This Works for all schools.**

Copy sections and students to academic year 2015-2016

Select academic year from which you want copy sections and students

2016-2017	▼
-----------	---

Type new names for sections, how it calls in academic year 2015-2016

Do not named sections that not need in selected academic year 2015-2016

section 2

2-1 section

OK

After creating school year, administrator **need** to add semesters. Before creating school year semesters select school year in begin of page(beside of log in name in top right corner). To add semesters for new school year go to **Semesters** and school semesters for new school year.

Semesters					
Show <input type="button" value="10"/> elements New					
Title	Start date	End date	Academic year	Actions	
ssemester 1	2016-01-05	2016-19-05	2015-2016	Edit	Details

Showing 1 do 1 of 1 elements

Start Prev **1** Next Last

In beginning of using system, super administrator need to add direction for his school. Administrator create direction with duration (how much year this direction is long) with go to **Directions:**

Directions			
Show <input type="button" value="10"/> elements New			
Title	Duration	Actions	
direction 1	2	Edit	Details

Showing 1 do 1 of 1 elements

Start Prev **1** Next Last

Directions it's for example degree of what: degree for cook, degree for battler, ... And all of them have there subjects for each class. For example in first class they have Math, but in second thy didn't have Math, or other kind of Math...that is the subjects for that directions and subjects have class and direction which are belong. Based on that when add students in group that mean that students learn that subjects and teacher who study them see only them students.

School direction is for multiple schools system, that every school didn't need to have all direction, some of them can have one or more, and other can also have some of direction.

Direction and add subject to direction will help super admin to type only once subject list and didn't type the same subject in every school year.

SMS system has possibilities to have multiple mark systems. So before define subject, define marks systems in your schools. You can create it using **Mark systems** in left menu:

Mark systems	
Show <input type="button" value="10"/> elements	<input type="button" value="New"/>
Title	Actions
Numeric	<input type="button" value="Edit"/> <input type="button" value="Details"/> <input type="button" value="Delete"/>
Text	<input type="button" value="Edit"/> <input type="button" value="Details"/> <input type="button" value="Delete"/>

Showing 1 do 2 of 2 elements

Start Prev **1** Next Last

Mark system is for multi schools that can have different mark system: some of them can have A,B,C... and some of them can have 1,2,3, ... or some other.

After creating direction and mark system, administrator need to add subjects with select direction, mark system and class where is student studied it. While add subject important is to add subject for each class. For example, if some direction have duration 3, you need to add subjects for 1. 2., and the 3. class. To creating subjects go to **Subjects**:

Subjects					
Show <input type="button" value="10"/> elements	<input type="button" value="New"/> <input type="button" value="Import subject"/>				
Ordinal number of subject is	Class	Mark system	Title	Direction	Actions
1	1	Numeric	MAth	direction 1	<input type="button" value="Edit"/> <input type="button" value="Details"/> <input type="button" value="Create student invoices"/> <input type="button" value="Delete"/>
2	1	Numeric	English	direction 1	<input type="button" value="Edit"/> <input type="button" value="Details"/> <input type="button" value="Create student invoices"/> <input type="button" value="Delete"/>
1	2	Numeric	English	direction 1	<input type="button" value="Edit"/> <input type="button" value="Details"/> <input type="button" value="Create student invoices"/> <input type="button" value="Delete"/>
2	2	Numeric	Math	direction 1	<input type="button" value="Edit"/> <input type="button" value="Details"/> <input type="button" value="Create student invoices"/> <input type="button" value="Delete"/>

Showing 1 do 4 of 4 elements

Start Prev **1** Next Last

Also, Super administrator can import subjects when click on **Import subject** in **Subjects**

Import subject

page:

In subjects you can

specify *Ordinal number of subject* that is used for sorting in list of subject, if you like to use it and class is in which student class(first, second... till limit - class that defined in directions) it will be uppers.

Here is example and steps to create correct subject list for some group:

1. First create direction with enter duration (for example 2).

2. In Subjects, create list of subjects for that direction(you may create more then one item per class). For example:

- title: English, class:1, direction is above created
- title: English, class:2, direction is above created
- title: Math, class:1, direction is above created
- title: Math, class:2, direction is above created
- title: History, class:2, direction is above created

3. Create groups of student in section (latter will be explained where is group and how to work with it). For example:

- 1-1 group with direction (as before created here) and set class 1;
- 2-1 group with same direction and class 2.

Now you can see what is going on with subjects when you click on subjects on one of the created group.

In subject list, Super admin can create invoices for all students for last school year who learn selected subject. If super admin defined that some subject have fee in creating subject and when click on **Create student invoices**, that generate to all students who learn that subject in **current school year** invoice.

Except creating directions and subjects, administrator need to create mark types, mark values and notice type. To create mark types go to **Mark types**:

Mark types			New
		Search:	
Title		Actions	
oral		Edit	Details
writing		Edit	Details

Showing 1 do 2 of 2 elements Start Prev **1** Next Last

Mark type is for different mark types like: oral, writing, reading...

To create mark values go to **Mark values**:

Student Attendances

1

Student marks

He can select student from top right menu:

The screenshot shows the top navigation bar of a web application. It includes a calendar icon for '2015-2016', a graduation cap icon for 'Student12 Student', a building icon for 'Second school', and a user icon for 'Parent Parent'. Below the navigation bar, there is a sidebar with a green person icon and the text 'Student12 Student'. A button labeled 'View all >' is visible. To the right, there is a large number '1' with a grey arrow pointing to it, and a small icon with '1 2' below it.

Or school year:

This screenshot shows the same top navigation bar as the previous one. The sidebar now includes a 'View all >' button and a section titled 'Student Attendances' with a double-headed grey arrow icon. To the right, there is a large number '1' with a grey arrow pointing to it, and a small icon with '1 2 3' below it.

Or school:
